Complaints have reached Cruelty to Animal Agent, Ned Cross, of horses hitched along the streets, particularly in the square behind L. J. Brooks' store, without protection against cold weather. Charges are that many animals have light protection or have no blankets and are left to stand for hours in the bitterly cold wind. If your team is hitched, hunt up the agent, who may have even shelter to the neglected horse. Play fair with your friend, the horse, if he is to remain alive even a brief time; he is flesh and blood and will appreciate a warm covering.

BASKET BALL

N. H. S. 35; West Paris High 22
One of the noisiest if not the liveliest game of the season was staged at Norway Opera House, Friday evening. Norway High School won from West Paris High School with a score of 35-22. Both teams played neck and neck during the first half with little to sort out for a winner. West Paris played trumps during the first ten minutes and was on the road for making a long run, until Pung, other Norways followed and a narrow lead was gained. The visitors fell behind in their ratio of baskets during the second half. Norway had possession of the ball for longer periods and fewer chances were offered Bane on the foul line.

Both outfits played fast, and furious at times. West Paris had over her opponents for shooting into the net, especially was this noticeable on long chances. While Norway shot at the ring three times West Paris one, and scored only a small proportion many of these belonged to the hard luck family, others went badly because the visitors were kept on breaking 'em up.

Passing was featured by each team. West Paris excelled at long range, using the triangle and four cornered strategy. Norway appeared more proficient at close quarters but dribbled frequently around the outskirts. The Parisians were well coached on intercepting long passes and defending dangerous territory about their hoop, but could do little advancing on short relays against Norway's defense.

Bane proved one of the most sure basket makers from the foul line, securing four perfect throws from five chances in the first period. His luck changed with the basket in the second half, for he lost the only two offerings presented. Time out was called several times for minor accidents. Norway played the first string throughout. Coffin replaced Briggs at left forward in the second half for West Paris.

Both schools were backed with cheering squads to encourage their respective teams. West Paris delegation arrived cozily packed in a hayrack and occupied seats in the hall near the stage where a good view of the game could be obtained. Elizabeth Klein's rooters occupied the center and cheered lustily for Norway. When hot crowds happened to be "legging" at the same time on different themes, even the Opera House windows buckled for the din made some pressure.

The girls opened the entertainment, Friday evening, with their game played in the double court. Norway, of course, defeated the young ladies from West Paris and kept the ball in the visitors' court the largest part of two periods. "Clean cut" passing by the home team, and a working knowledge of the game were noticeable features during the play.

The Paris girls played their positions well but were unfortunate at the basket, the chances to shoot were scattering and no scoring was done except on the foul line. The score:

The Norway girls defeated the Hebron quintette in a very interesting game at Hebron Academy Saturday afternoon. The Hebron five showed careful training and played a hard and fast game from the first sound of the whistle to the last. This is the initial game that the Hebron team has played with another school and much praise is due them for their excellent work.

The Norway girls played with their usual speed and vim and expressed their deepest appreciation for the courtesy shown them by the Hebron cheering section. The girls have given themselves over to basket ball, this season and are showing by their team work the results of the sacrifices they have made.
After the game they were royally entertained and received a fine send-off for their moonlight ride home. The score:

High School Notes
Ernest Watson of Norway Center, who was obliged to leave school in his sophomore year, has returned and entered as freshman with the "Aggies" as students in the Agricultural Department are called.
Equipment is being constantly added to the Agricultural Department. New charts showing an enlarged kernel of wheat in detail, and a cross section in colors, of a modern flour mill have been acquired. The new spray chart designed to put the student view to the destructive sucking insects is hanging on the walls. A manual for use in connection with the illustrations is also at hand.
Practical corn testing is in full swing. Samples were furnished by Stephen Abbott and the class are watching results of germination to decide the fertility. They use a rag-doll tester, which is a strip of cloth with two rows of pockets for samples under study. After the strip is rolled (hence the name) moisture is applied, in a certain number of days the contents are examined. The class is prepared to test the seed of any farmer in town.

An enjoyable evening was spent Thursday at the Agricultural Rooms under the gym, when the Aggie Club boys met for business and sociability. Instructor Edward Brown was in charge. A debate was in order during the regular meeting period. Holstein, and Jersey cattle were compared and good or poor qualities discussed. Champions of the Holsteins were a trifle stronger in their arguments and that breed won the debate. Refreshments of peanuts and popcorn were served. Basket ball closed the evening's program.

Yorke Concert
It is earnestly hoped that all lovers of music will take advantage of the unusual concert to be given at Norway Opera House under auspices of the Universalist Church, February 4th, by the extremely gifted and vivacious Helmer Yorke. Miss Yorke appeared at Mount Carmel, Pa., this month and the Mt. Carmel items of January 18th says of the concert, "Never before has so gifted an artist appeared before a local audience. With a glorious voice, inexhaustible and impeccable technique, volume to spare, a splendid range and a truly wonderful personality—surely Miss Yorke ranks with the elect few among singers. It is easy now to understand why someone has called her a second Galli-Curi."

Another feature of the program will be the assistance of Marion Haskell, our local violinist, whose engagement with Miss Yorke at Lewiston permits her to play in Norway at this concert.

Clerks' Ball for European Relief
Preparations are going on for the 27th annual clerks' ball in Norway Opera House on February 22. Hobbs' Orchestra of Lewiston will furnish the music. The executive committee has decided to make this social event a benefit for the European Children's Relief Fund, and the net proceeds will be so applied. Community Farming Course for Rural Districts
In connection with the "Agricultural Course at Norway High School, instructor Edward H. Brown has extended the scientific teachings and methods into rural districts to assist the boys not in school and to help any farmer desiring information.
More than thirty men, women and children attended the meeting at Norway Center, Saturday evening. Mr. Brown introduced the subject, Corn, kind of seed to grow, how to select seed, and how to take care of your seed. After the lecture a discussion followed with many questions to be answered in the light of practical results obtained through exhaustive experiments and observation. All were enthusiastic and the community gathering was considered a success.

Seven more meetings of this nature are to be held at Norway Center and Mr. Brown is anxious to have every family in that section represented. Lectures will cover subjects pertaining to local conditions, and the open forum, or question box, gives opportunity for a free discussion of topics under consideration.
If possible, Mr. Brown will start a similar course at the Heywood Club House next week for the families of that district.

Entertained On Anniversary
Mrs. Howard B. Allen of West Paris and her sister, Mrs. Elwood S. Harris from West Baldwin, were in Norway visiting their parents, Mr. and Mrs. Albion L. Hill, also to enjoy the happy event of their 55th anniversary, the 14th of January. It was the first time since childhood that the two daughters have been able to be there on that day and it was a happy event to all.
A family party gathered the following Sunday. Mr. Harris came from West Baldwin in his car and his wife returned with him. Mr. Allen came, but his wife resided a few days longer, Geo. O. Sues Sheriff
Merton L. Kimball has sued Sheriff King F. Graham of Portland for \$200 alleging assault at the County building on Monday, Jan. 26, 1920. The bill is returnable at the February term of the Supreme Judicial Court for Oxford county, to be convened at Paris, Feb. 8th.

Progress Made to Divide Town
The citizens of South Paris made the first general move to take action in the question raised by numerous West Paris citizens for a separation, at a mass meeting held in South Paris grange hall Jan. 17. While there was a difference of opinion, all would be sorry to have the town divided, yet were willing to abide by the verdict of the legislature in the act to create the West Paris Village Corporation now before that body.

There is some doubt if the inhabitants of the north and western part really want to break away. It is understood a remonstrance will be presented, signed by certain citizens of the territory included, objecting to the limits as stated in the act. Others it is said are opposed to an independent municipality.

The matter of town indebtedness was discussed freely, and the portion which the new corporation should assume was gone over thoroughly. Walter L. Gray made a motion that it was the sentiment of the meeting that if the Western part would assume \$10,000 of the concrete road bonds, and its part of the town debt there would be no opposition to the separation.

A committee was chosen to look out for the interest of this section, it includes Penley F. Hopley, Walter L. Gray, Chas. W. Bowler, L. L. Mason and Richard H. Gates.

The West Paris Village Charter
The Act to create the West Paris Village Corporation was presented in the legislature on Thursday by Arthur E. Forbes of Paris. The vital points are as follows:

Section 1. So much of the territory of the Town of Paris, in the county of Oxford, as is bounded and described as follows, viz.: all of double lots numbered twenty-seven (27) and twenty-eight (28) in the third range in said Town of Paris; also all of double lots numbered twenty-seven (27) and twenty-eight (28) in the second range of lots in said Town of Paris which is bounded northwest by land of Fred R. Penley and his estate; land produced to land of the Grand Trunk Railway; northerly by land of said Railway; easterly by the range line between lots numbered twenty-seven (27) and twenty-eight (28) in the second and third ranges in said town; southerly by the lot line between lots numbered twenty-six (26) and twenty-seven (27); and southwesterly by the said and partially discontinued road leading from High Street to Greenwood, and comprising the territory upon which is situated West Paris Village, so called, together with the inhabitants residing thereon, be and the same are hereby created a body politic and corporate by the name of the West Paris Village Corporation.

Section 2. Said corporation is hereby invested with power at any legal meeting called for the purpose, to raise such sums of money as may be sufficient for the purchase, repair and preservation of one or more fire engines, engine houses, hose, buckets, ladders, or other apparatus for the extinguishment of fire, for the extension of the present hydrant system, and for organizing and maintaining within the limits of said territory an efficient fire department; also lighting their streets, maintaining police force, and for the support of a library within said corporation; and for officers' salaries and expenses and such other current expenses as this act calls for.

Other sections of the act provide the machinery for the running of the corporation in the usual manner and organizations. Regarding the adoption of the act Section 5 is as follows:

Section 5. This charter may be accepted at any time within five years from the date of its approval by the governor, and its rejection in any calendar year shall not prevent its acceptance in any later calendar year during the time aforesaid; but only one meeting to vote thereon shall be held in any one calendar year. Fred R. Penley, E. W. Mann, Alfred C. Penham, D. Henry Fifield, Ellsworth D. Curtis or any one of them may call all meetings of the inhabitants of said territory previous to acceptance of this charter, by posting a notice,

NORWAY IS NO EXCEPTION

Norway People Come Out as Frankly Here as Elsewhere

Norway people publicly recommend Doan's Kidney Pills. This paper is publishing Norway cases from week to week. It is the same everywhere. Home testimony in home papers. Doan's are praised in fifty thousand signed statements, published in 3000 communities. Norway people are no exception. Here's a Norway Statement.

M. W. Sampson, prop., boat transportation business, 19 Bridge St., says: "It has been some time since I have used Doan's Kidney Pills, but from past experience I can recommend them to anyone in need of a good, reliable kidney medicine. A cold settled in my kidneys and brought on attacks of backache. I was lame and unable to move any way. The pain in my back was severe. My kidneys didn't act right and I had dizzy spells. A friend who had used Doan's Kidney Pills with good results advised me to try them so I went to Stone's Drug Store and got three boxes. After I had finished taking them the trouble left me and I have been free from kidney disorder ever since."

COMMUNITY SPIRIT

It requires many people to make up a community, and in that community are many shades of religious and material beliefs. It stands to reason that there is and will always be much variance of opinion. Never are two people found whose views are identical on every subject, nor even of any subject. Somewhere the dividing line is found, and there the community trouble begins. Each of us is prone to think himself right and all others wrong. It is human nature and will always be so.

There is a common ground on which all may meet, a forum from which the community spirit may be developed to the highest degree. That is the arena of free speech and public discussion of community affairs. Where many are gathered together and each gives his views as he sees them, the majority is reasonably sure to arrive at a proper conclusion on any subject concerning our local welfare.

Such a course might be employed to good advantage in all communities. The craniums of our local people are filled with excellent ideas for our collective advancement. All that is required is an opportunity for them to be heard.

Golden Wedding

Jan. 17th, Marcus Morton Smart and his wife (nee Ellen E. Quincy) celebrated their 50th wedding anniversary at their hospitable home at Fryeburg Center. Through the thoughtfulness and kindness of their neighbors several of their friends had been notified of the event and preparations made for entertaining them.

About two o'clock a large sleigh and two smaller ones drove to their door and nineteen of their friends from Fryeburg village took possession of the house and after all had offered their congratulations a delicious lunch consisting of ice cream, several kinds of cake, doughnuts and coffee, were served, and a very handsome wedding cake, also a bride's cake was cut and served.

Magnificent roses were in evidence in every room and their delightful perfume was most welcome as one stepped in from the cold air.

Mr. and Mrs. Smart were the recipients of many gifts, including gold pieces of various denominations, china, etc. A poem entitled "Wedding Bells" was written for the occasion and read by Mrs. Tarbox. Mr. and Mrs. Smart have hosts of friends and received many letters and cards of congratulation, and had they selected a more favorable season for their marriage it is doubtful if their spacious house would have been adequate to the occasion. However, everyone seemed to agree that it was a delightful trip and all hoped to be able to attend Mr. and Mrs. Smart's Diamond Wedding.

Relief Fund

Drive for the European Child Feeding Fund ends, Feb. 1. Through the columns of this paper I am asking all those whom I have not solicited and who wish to contribute to this world-wide movement, to please send in their gifts to me and I will forward them to headquarters, where they will be credited to your State and Town.

Norway's quota of \$540 is nearly raised, but there is still great need of funds. Shall we not help prolong the physical lives of these little ones, thereby showing our gratitude for the Supreme Gift of Eternal Life to all? Purchased not with money, but blood? Never in the history of Christianity has such an opportunity presented itself, for claiming the promise Christ made to all in the fortieth verse of the twenty-fifth chapter of Matt., "Inasmuch as ye have done it unto the least of these my brethren, ye have done it unto me."

Elvira Groves Brooks, Treasurer of "The European Child Feeding Fund," for the local work in Norway.

A Wonderful Cat

A short time ago a number of people in the course of conversation were speaking about the price of eggs and the laying qualities of different strains of poultry. A number had extolled the par excellence of the hens and the wonderful records they were making, etc. One young lady in the company after listening attentively for some time, remarked:

"Yesterday afternoon, when I went out to gather the eggs my yellow cat followed me into the pen, and so intent was I on getting the eggs I forgot all about the cat and went out fastening the door behind me. Along toward night I went to feed the hens and there in one of the nests, curled up, lay my yellow cat. I pulled her out and what to my surprise should I find but a great, big yellow egg."

"No use telling any more egg stories, tonight, that yell'ar cat beats them all," said one in the party after a good laugh.

Two Pickered on One Hook

Frank Lovejoy tells rather an unusual incident that happened, Saturday, Jan. 22, while fishing with Arthur and Walter Morgan at North pond. Frank says for a fact that in hauling in a line they discovered two pickered on the same hook, the smaller fish which was 9 or 10 inches long having been swallowed by the larger one.

The longer pickered weighed about 2 1/2 lbs. They report a good string of fish.

The funeral of Maxine L. Lapham, the year old daughter of Leroy C. and G. Ethelene Lapham, was held, Friday afternoon, attended by Rev. M. O. Baltzer. Death was due to pneumonia.

Alfred H. Spears, auto, carriage and sign painter of Oxford, called the other morning and introduced us to his ancient barrel shaped sleigh that has 134 years of authenticated history. The sleigh was originally owned by one of the North Norway Frenches. It came into Mr. Spears' possession and has been repaired and gaudily decorated. "1787" are the big figures on the back. C. H. Flood accompanied the old sleigh into town.

Now days the men talk a lot about sugar, peaches, apples and raisins.

Let Your Voice Be Heard

Farmers sometimes have been hampered by ill-advised action in Washington. Congress and department heads have seemed out of touch with rural thought and deeds. Other interests have absorbed too much of the attention of national officials.

This has happened because the single farmer can seldom make his voice heard. It is time that Congress gave more heed to the great agricultural population. And when farmers' wants are expressed through a common spokesman, backed by an increasing number of farmers, Washington must listen and act.

The Grange has such a spokesman at Washington. Through him it has forestalled many moves hurtful to agriculture. Government officials know its arguments are sound and free from radicalism.

Many issues vital to the success of farming will come before the new Administration and Congress. The Grange offers you the chance to make your voice heard.

THE COUNTRY GENTLEMAN, too, maintains a Washington representative to watch after the farmers' interests. His articles will keep you in close touch with governmental activities of vital importance to farmers. And that is only one of the ways by which its national farm-news service will aid you. Every week it brings a dozen keen articles, interesting fiction, helpful editorials and enjoyable humor.

ONE DOLLAR for a year's subscription (52 issues) will buy big value in benefit and entertainment. Let our secretary forward your order—today!

UNDEVELOPED water power is fine for scenery—but what Maine needs is DEVELOPED water power—a surplus ready to meet the demands of any manufacturer who may want to come to Maine.

This need has been supplied by Central Maine Power Company.

The determination to have power ready and available has long been one of the guiding principles of Central Maine Power Company. Acting on this principle it has added, through the 15 months which ended December 31, 1920, new construction costing nearly \$2,500,000.

Its transmission system, extending from Skowhegan through Waterville, Augusta, Gardiner to Lewiston, is now capable of handling and delivering at any point between the terminals of this line 15,000 horse power.

At Skowhegan the installation of the first 4000 horse power unit in its new hydroelectric plant is completed and the second unit will be in operation about February 1 and the third in April or May. At Farmingdale the line taps into the steam plant where, if needed at any hour of the day or night, 10,000 steam generated horse power is available.

From this main line, adequate feeders radiate to the more than 100 communities served.

It would seem that the Company has reached a distinct period in its existence.

It has achieved the position where its lines reach the towns and villages occupied by one-third of the population of the State, where every individual or corporation in its entire territory is supplied with every power demand that has been made, and where it still has developed and available, ready for immediate use, a surplus of absolutely reliable power.

As told in these few sentences, this accomplishment may not seem to have much significance; but to those who have been struggling and working for this end

through many years there comes the feeling of profound satisfaction that so good a result has been obtained. Twenty years ago no industry located in, any one of the towns which we now serve could be sure of being able to obtain 100 horse power of electric power. Today any industry, new or old, can have 100 or 10,000 horse power on application.

Much has been said and written about the water powers of Maine and the great industrial possibilities which they hold out for the future of the State, but there is nothing more useless for anything except scenery than an undeveloped water power. Handicapped as Maine is by transportation and other difficulties, Central Maine Power Company felt certain that the fundamentally important thing was not to dwell on what the great powers that are undeveloped MIGHT do for us at some distant time in the future; but to DEVELOP them NOW and have them ready to use.

This we have done and hope to continue doing as the need arises.

Because through 1921 we shall have use for investment money for various requirements, especially to finance the second and third units which will be placed in our new power development and to complete the lines which will interconnect our new properties with the old, the Company is able to offer to the investors of Maine through 1921, approximately 10,000 shares of preferred stock.

This stock seems to us to be safe in the last degree; and likely to pay \$7 per year per share as long as Maine rivers flow. The price is \$107.50 a share, the yield 6½ per cent. net.

May we send you a book, showing what is behind an investment in Central Maine Power Co., together with full information about the Company and its securities. If you are interested in a safe and sane State of Maine investment, just send in the coupon.

Injured in Runaway Accident
Last Sunday Mr. and Mrs. John Doherty and daughter May called on Mr. and Mrs. Sheridan Fox. On returning to their home in Kezar Falls, the horse they were driving became frightened and got outside the road striking a rock, which brought the sleigh to a sudden stop, throwing the three occupants over the dasher to the ground. The little girl landed directly under the horse's feet and he had kicked her two or three times before she could be removed. Then the horse ran into the fields over a stone wall leaving the sleigh on the wall and breaking the harness a good deal.

The horse ran into the road again towards the Falls and had gone some distance when he was caught by Moses Chapman, who brought him back to Sheridan Fox's. Mr. Fox carried the Dohertys to the Falls, where the doctor attended the wounds of the little girl. Oliver Chapman led the horse down to the Falls.

Rev. Mr. McLucas and grandson called on Moses J. Chapman's family on Saturday.

The power station received its first electric juice over the long distance circuit, Monday night, Jan. 24. The current was received from Skovhagen via Mechanic Falls over the regular transmission line. According to estimate about 2200 volts and about 100 Kilowatts is being received, which is about the limit for the present line. The station is carrying the regular business on water power and the electricity received is easily taking up the overload. Deer Rips is not connected yet, probably heavier cable will be strung before the service with high voltage can reach Norway.

Regular meeting of Lake Temple, Pythian Sisters, Tuesday evening, Feb. 1, with the new officers in chairs. A rehearsal for the officers will follow the business session.

The new committee for the coming year are: Mrs. C. W. Stanning, Mrs. R. W. Willard and G. W. Stanning. The church belonging to this parish was built in 1856, its builder and one of its chief promoters being the late Dea. Calvin A. Jackson. Of its earliest members, probably the oldest now living is Mrs. Emily J. Felt of this village.

WOODSTOCK

Our Taxes

As town meeting approaches the thoughts of a great many citizens begin to turn towards the inevitable result of town meetings—taxes. And the feeling seems quite general that taxes in Woodstock have reached the breaking point, are in fact so much higher than other towns that our citizens have but one choice, that is to sell out and move away in order to escape taxes.

It is true that taxes are high in Woodstock, the highest known for years, but it is only fair to remember that we are only up against what every community must face and has had to face since the War. Can anyone truly say that taxes are any higher than taxes in other towns that enters into the yearly expense?

The tax rate of our neighbor Paris is higher than ours. Let us think it over and see if the position of Woodstock is so very much worse than other towns, all things considered, and at least be fair to our own town.

There is more Catarrh in this section of the country than all other diseases put together and for years it was supposed to be incurable. Doctors prescribed local remedies, treatment, pronounced incurable. Catarrh is a local disease, greatly influenced by constitutional conditions, and therefore requires constitutional treatment. Hall's Catarrh Medicine, manufactured by F. J. Cheney & Co., Toledo, Ohio, is taken internally and acts through the blood on the mucous surfaces of the system. One Hundred Dollars reward is offered for any case of Catarrh that Hall's Catarrh Medicine fails to cure. Send for circulars and testimonials.

WATERFORD

Charles B. Learned

On Monday afternoon, Jan. 17, the funeral of the late Charles B. Learned, of Waterford, who died suddenly of heart failure a few days before, took place at 2 o'clock, at the house of the deceased. The funeral service was conducted by the Rev. Robert E. Jones, Congregational minister. Every room was filled to its utmost capacity. During the service, and at the special request of Mrs. Learned, the widow, Mr. Phila-brown, the Rev. and Mrs. Robert E. Jones sang, "Will the Circle be Unbroken," from Alexander's Gospel Songs.

The Rev. Mr. Jones took his text from John 11:35, "Jesus Wept," and spoke comforting to the relatives and friends.

In the death of Charles B. Learned, Waterford has lost a good citizen. He was born in Underhill, Vermont, and came to Waterford when he was about 14 years old. He has lived in Waterford nearly 51 years, and would if living till next June, be 65 years old.

He was a successful farmer, and he had from time to time built many stone walls. As a good citizen he took an interest in the business affairs of the town, and ably and faithfully served on several of its committees. His service to the town was always marked with honesty of purpose. He was a staunch supporter of the right, and a bitter opponent of the wrong. He was very much interested in politics, and if he occasionally over emphasized his views, it was because he felt strongly. He will be missed in the town. He was a republican and served as delegate to the convention at Bangor.

His place at the fireside of his home, where he regularly used to read the news of the day to his son and only boy Charles, who is just recovering from a serious operation, and his wife, now widowed, will be vacant.

He is also survived by two married daughters, Mrs. Olmstead and Mrs. Penstock, who live in Norway, a sister, who lives at Williston, Vermont, and a brother, who lives at East Waterford. He also leaves three grandchildren.

Interment was at the Waterford cemetery, amid a profusion of flowers.

CHRONIC CATARRH

Follows Repeated Colds When Blood is Impure.

Your body suffering from a cold does not properly attend to digestion and elimination. As a result your blood becomes impure, it inflames the mucous membrane and brings about that condition in which chronic catarrh occurs and on which it depends.

Purify your blood, make it clean, by taking Hood's Sarsaparilla, and if your bowels are not healthfully active, take Hood's Pills. These medicines have relieved and prevented many cases of chronic catarrh. Economy is one of the strong points in Hood's Sarsaparilla—100 doses in a bottle. Why not get it today?

**THE PRICE PENDULUM SWINGS TO THE OTHER
EXTREME DURING THIS AFTER INVEN-
TORY JANUARY CLEAN-UP STOCK SALE**

NOW IN PROGRESS

Which continues during January

In other words this sale offers large quantities of merchandise at prices that are positively lower than we will be able to quote after the close of sale which ends Monday night, January 31st.

Come to this sale for we want you to fully understand the wonderful buying opportunities this sale offers.

After the opening day of selling, which has had no equal in this store's history in any way, as regards numbers of people present, of merchandise sold or advantageous prices during any previous January sale, the sale continues with undiminished attractions presenting the same shopping advantages that were in evidence at the opening hour.

An apology is undoubtedly due to many who could not get served satisfactorily last Saturday, the opening day of the sale, but notwithstanding the fact that our sale force had been increased, we were unprepared to meet the extraordinary demands made upon them. A much better service, however, may be assured during the remaining days of the sale and none may feel that any opportunity has been lost.

BOY SCOUTS OF AMERICA

OXFORD COUNTY COUNCIL

Charles L. Pollard, Scout Executive, Bethel

The eleventh anniversary of the scout organization will be observed during the week of February 6-12. The troops will arrange their own programs, in the county, but special features will be scout services in the churches and meetings of all troops on the evening of the 8th, when every scout in the United States will repeat the scout oath. In Bethel there will be a union service of the three churches, which is especially appropriate, as the scout oath is an epitomized statement of Christian Doctrine.

The Rumford and Canton troops are making excellent progress. Seven of the Canton boys recently passed their tests for second class. In Rumford the visit of Chief Seascout Wilder a few weeks ago was much enjoyed, and the older boys "laid the keel" of the first seascout ship in Maine at Buckfield, the birthplace of John D. Long.

During the week of February 13-19 examinations for promotion will be held by the local courts of honor in all the towns.

Thirty-one boys in Norway have signified their desire to join the local Scouts and signed the required blanks, twenty-six have paid the registration fee. Twelve passed the examination for tenderfoot and this number has allowed a registration at the National Headquarters, Scout Executive Charles L. Pollard of Bethel was in town recently and secured Edward H. Brown as Scout Master and Chas. F. Cummings for assistant Scout Master. Preliminary meetings have been held in the Municipal Court Room, beginning Feb. 8, the American Legion Rooms will be used as headquarters.

BATES—WEST PARIS

The people of this place, especially the young people were greatly saddened by the news of the death of Earl Hollis. He was one of the first graduates of West Paris High school and a great favorite among his schoolmates. The school on Wednesday the day of his funeral at North Paris commenced an hour earlier in the morning that they might close in season to attend in a body. A large floral piece was presented to his memory. He was a member of West Paris Grange and a new Steward elect. He was unable to be present at the installation, last Saturday.

DROPPED DEAD

Another sudden death occurred in the lumber yard back across the river from the Paris Manufacturing Co., when John Ruokolaime fell dead while unloading his load of pulp wood, Monday night.

He had a 13 year old Finnish boy, who recently arrived from Finland, with him at the time. He lives on the Hiram Bacon farm on Curtis Hill in Woodstock and has three small children, all under 4 years.

Mr. Ruokolaime had been complaining of a side ache for a week or two past and it was thought that he had received a strain in the region of his heart.

ALL DAY GRANGE

The all day meeting at the Grange, Saturday, was a very enjoyable affair. There was a good delegation from Bryant's Pond and a number from South Paris. There were 125 or more to dinner. State Master Thompson conducted the double installation in a very delightful manner. One officer, Flora from Bryant's Pond, and two, the Steward and Pomona of West Paris, were absent. The officers who were installed in this Grange were as follows:

Master—F. L. Wyman.
Overseer—Mr. R. Tuell.
Lecturer—Mr. Esther Tuell.
Sec.—Mrs. Mary B. Wyman.
Treas.—William Stearns.
Chap.—Mrs. A. D. Littlehale.
Assistant Steward—William Littlehale.
L. S.—Bessie Smith.
Ceres—Mrs. Anna W. White.
Flora—Mrs. Mary Swift.
Gate Keeper—Helen Briggs.
Chorister—Olga McKee.
Librarian—Mrs. McKee Smith.

After the installation an interesting address was given by the State Master. Besides this there was music by the Grange, recitation by Ola Kimball, and two by Al. Morse of South Paris, two selections by the South Woodstock quartette and a violin solo by Margaret Lane, accompanied by Helen Packard.

A wedding shower was given to Mr. and Mrs. Alanson Cummings, Thursday evening. A good time and a lot of presents received.

Mrs. W. S. Austin is spending a week with her sister, Mrs. S. T. White.

ALLEN—WEST BETHEL

This vicinity is in the grip of another cold wave. The schools were not in session, Tuesday.

Farmers and storekeepers were busy, last week, harvesting their ice, which they cut from Pleasant river.

Ervin Hutchinson has been confined to the house for a number of days.

Mrs. Ada Wright of Biddeford was the guest of Mrs. Alfreda and Grace Farwell, last week, and called on other relatives.

The ice at the ferry has been made strong enough for teams by the last cold weather, which means a whole lot for the people on the Norway side as there has been only crossing for foot passengers, recently.

L. E. Allen has been confined to the house for a week with a lame shoulder. Byron Abbott is confined to the house by a bad cold. Colds are going the rounds.

Anita Hoffmann, who has been visiting at L. E. Allen's, has returned to her home in Baltimore, Md.

Mrs. Cordelia Merrill of Skillington was a caller at Mrs. Alfreda and Grace Farwell's, and saw her cousin, Mrs. Ada Wright.

Mrs. Sylvia Gilpatrick was called to Boston recently to attend the funeral of her brother.

MAINE WOMAN HAD A

LONG STRUGGLE

Had More Than Her Share of Suffering, She Says—Gains 20 Pounds Taking Tanlac

"It was last Spring that Tanlac restored my health and I have felt just splendid ever since," said Mrs. Charles Routh, who lives at Chelsea, Maine, out on R. F. D. No. 2 from Augusta.

"I certainly had a long hard struggle with ill health and it seemed to me that I had more than my share of suffering. My stomach had become so badly upset that I didn't want to eat a thing, and to tell the truth, I was afraid to. I couldn't digest a bite properly and often had pains in my stomach that were so bad I had to give up and go to bed. I would blot up dreadfully and every morning there was always a bitter taste in my mouth.

"My nerves were in a wretched condition and often I had such severe headaches that I had to go to bed. It always seemed hard for me to go to sleep, and if I did doze off it was only for a short time, and I woke up every hour of the night. I fell off a great deal in weight, was very weak and felt that I might break down any time.

"I tried Tanlac on the recommendation of a friend and I didn't take but three bottles before I felt perfectly well in every respect. The indigestion, nervousness and headaches have all left me and I sleep soundly every night. I gained twenty pounds in weight and ever since then have been in perfect health. I am all the time telling someone about Tanlac, for I think it's my duty."

Tanlac is sold by A. L. Clark Drug Co.

A TRUE STORY

One of our good customers wanted a good, big storm blanket.

Somebody told him he couldn't get such a one in this town, so he sent to the city and got what he wanted and the price was ten dollars.

Next day he was in our place and saw the same thing and the price tag on it was marked \$5.00.

We have a good many nice blankets of all kinds, Street Blankets, Storm Blankets, Stable Blankets

For some reason or other, they are marked way below present costs.

The moral of this story is so plain that we need not buy space to print it.

It will be of salutary instruction to

many to attend the school of the Jan-

23d, or Septuagesima Sunday, commenced

in the Catholic church what is known as

Septuagesima Season—a season of pre-

paration for the more abstinent and as-

ter Season of Lent. It is of seventeen

days duration and closes on Shrove

Tuesday or what the French call Mardi

Gras, the day before Ash-Wednesday,

when the festive season absolutely closes

and gives place to the strictly penitential

season of quadragesima, or forty days

of fasting, prayer, and alms giving, as

a means of sanctifying the soul and pre-

paring it for a whole hearted participa-

tion in the joys of the Pasch, the day of

the Glorious Resurrection of the Lord.

The old and new methods for doing things were shown together on Main St., Saturday afternoon. A pair of oxen yoked to a sled, and munching hay during the noon hour was in contrast to the high baby tractor across the way harnessed into a rigging for hauling heavy loads to the summit of Pike Hill.

Practically no snow south of us, with excellent motoring may be accountable for the automobile on the streets Monday, carrying the license No. 108,604 Massachusetts 1921. We are not accustomed to "foreign" cars in January. Only under favorable conditions do we see any gas car late in the month.

Marjorie Rich returned from the Central Maine General Hospital Saturday where she underwent an operation some ten days before. She is gaining rapidly. Mixing up the series of tickets caused general confusion among the users while seating the gallery spectators for the basket ball game at the Opera House Friday evening. Seats were checked at Stone's on one series, and the box office put out another kind, therefore many explanations were in order and diplomacy needed.

Ben Bicknell is disgusted with pickering fishing. On a recent trip to McWain Pond he chopped ice and stuck around several hours for nothing. He was stalled in snow returning home and spent cash to be hauled out. Ben has charged the costs to "overhead."

Oxford County Pomona Grange will hold their meeting at Bryant's Pond, Tuesday, Feb. 1. It is expected the Norway grange will be represented by a large delegation.

The Norway High School girls expect to play basket ball at Mexico, Friday evening, weather permitting. The team has been very successful thus far and they will endeavor to continue the winning streak if possible.

EAST OXFORD

Many from this section have been enjoying ice-fishing on Lake Thompson during the past ten days. Harold Pratt has been the most successful, having landed a fine four-pound salmon. Guy Savin took twelve good sized toge in one day. D. L. Benson and Harry Fuller got two toge, a pickerel and a large cusk. Stanley Pratt and his wife caught a number of toge. Mr. Pratt is having his salmon mounted at Nash's.

William Thomas who is working at the Pratt Mill received quite a severe scalp wound from a board. Several stitches were required to close the gash, but he has been able to continue his work.

Edgar Strother had a narrow escape while cutting wood recently. In attempting to cut loose a lodged tree he was snapped into the crotch of another, his foot caught and he hung head down. His shouts for help were fortunately heard by Floyd Felton who happened to be passing at some distance and he finally succeeded in releasing the young man from his perilous position.

School at District No. 6 was resumed January 17th, the opening having been delayed by the sickness of the teacher, Grace Lamb.

Perley J. B. of Bethel is with his aunt, Mrs. Levi McAllister, for the winter. Mrs. William Caldwell is sick and in care of a trained nurse. A doctor from Norway is attending her.

Harold Hall has gone to New York where he has a promising position in a bank.

Harry Fuller and James Mark are cutting wood for Thomas Tague.

Thomas Tague has been confined to the house with a severe cold, but is better at last.

Mrs. Frank Harris is ill with a cold and under the care of a doctor. Mr. Harris and Stuart have also been sick, but are able to be out.

Philip York of Sebasteo is a guest at J. P. Fuller's.

George Dyer of Harris Hill is visiting his daughter, Mrs. Levi McAllister.

Winfield Gammon, Thomas Tague, D. L. Dorey, William Caldwell, J. P. Hall, William Thomas, J. F. Fuller and F. J. Hall have finished getting ice at Paine's Pond.

Dallas Benson has been at Avon on business the present week.

Pratt Neighborhood

Guy Savin, sawyer at H. M. Pratt's saw mill, has been spending a few days at Thompson Pond, fishing. Winfield French of Oxford took his place at the mill while he was away.

Many in this vicinity are ill with bad colds.

Walter Deane is getting lumber ready to build a barn on the Johnson place which he owns.

An old house which was torn down in this vicinity recently was found to be lathed and plastered under the floors. The nails were hammered out. It is doubtful if many houses are built that way now.

There was no school in the Caldwell District Tuesday on account of the cold weather.

Wedding Reception

Mr. and Mrs. George H. McKeen gave an informal reception at their home in Paris, January 22nd, in honor of their daughter, Lillian, who recently became the wife of Clifford P. Lake.

Mr. and Mrs. Lake were the recipients of many beautiful, as well as useful, presents including linen, silver, cut glass, and fancy work. During the evening refreshments were served consisting of cakes, confectionery and punch besides the wedding cake cut by the bride.

Among the guests present from out of town were George McKeen, Jr., Lewis, Mr. and Mrs. Charles Deane, Mechanic Falls; Mrs. Guy Trask and daughter, Dorothy Sawyer, Portland; Mr. and Mrs. A. K. Thomas, Mr. and Mrs. D. L. Benson, Mr. and Mrs. Stanley Pratt, Oxford.

The bride has been with Harvey & Giddell, Insurance, of Auburn for several years, severing her connection with them to return to her home early in the fall. The groom, formerly a resident of Wilton, was a volunteer during the late war and saw active service overseas with the 26th Division. He has made his home in Paris for the past year while recovering his health.

Their many friends wish the young people a long, happy and prosperous life.

EAST OTISFIELD

Circle Notes

The Ladies' Sewing Circle met in an all day session with Mrs. Lewis N. Bean Wednesday, Jan. 12. Eighteen ladies were present and during the forenoon were busy engaged on aprons and pillow cases. At noon a hearty dinner was enjoyed. In the afternoon a business meeting was held and the following officers were elected:

Pres.—Mrs. N. Lamb.
V. Pres.—Mrs. Arthur Bean.
Sec. and Treas.—Mrs. M. O. Kepp.

Several new members joined and plans were made to meet with Mrs. Elliott on the following Tuesday.

On Tuesday, in spite of cold and blustering weather, fourteen ladies were present at Mrs. Elliott's summer home. The living room was warm and cozy, so everyone went to work on quilts and aprons. At noon everyone went to the dining room where they found an excellent dinner. In the afternoon the ladies were told to "look pleasant please," while their pictures were taken. The work was all finished before four o'clock and each one reluctantly got their wraps to go home. Such was the good time that Mrs. Elliott had given.

On Thursday the Circle had an oyster supper and sale. Many attended and all the fancy work was sold. Cake, pie and coffee were also sold to those who were not oyster hungry. Over \$50. was taken and everyone had a good time.

NORTH NORWAY

Mr. Toas, the teacher at Swift's Corner, spent the week-end at his home in Augusta.

A box supper will be given at the Chapel on Wednesday. A light entertainment and playing of games will follow. A good time for all who attend.

OXFORD

Leand Stone of Portland was in town over the week end.

Officers of Ladies' Circle

The Ladies' Circle of the M. E. Church met with Mrs. Ada Hamlin on Wednesday evening, thirty being present. The election of officers was held. Refreshments of cake and cocoa.

Pres.—Mrs. Jennie Adams.
Vice Pres.—Iola Millett.
Sec.—Ada Hamlin.
Treas.—Martha Holden.

It was voted to hold the next meeting in the vestry on Feb. 2 and serve a picnic supper.

T. A. Roberts Relief Corps

The last meeting of T. A. Roberts Women's Relief Corps was called to order by President Mrs. Etta M. Curtis. There being a candidate in waiting, an invitation was held and Mrs. Sophronia Staples of Welchville was made a member of the Corps. Senior Vice President Mrs. Ethel Coulton was installed at this meeting as she was unable to attend. At the time the other officers were installed.

As this was the first meeting at which the new officers presided, they did exceedingly well and deserve much praise. It was voted to hold an all day meeting and have a covered dish dinner at the Methodist Vestry on Saturday, Feb. 19th, and to invite members of the G. A. R. The Secretary, Mrs. Mabel Greenlaw, read her report of the installation which was given in the Knights of Pythias Hall. Members of the G. A. R. and Elmer D. Anderson Post No. 112 American Legion were invited, also members of the Corps had the privilege of inviting a guest. The officers were installed by Mrs. Lena M. Day of Gorham, who is Dep't. Senior Vice President. Mrs. Day is one of the most efficient women in the department and all who heard or know of her speak very highly of her ability. The Corps presented her with a cut glass sandwich dish which came as a complete surprise and was acknowledged in a pleasing manner. She was also very cordially entertained by Mrs. John B.
